NEW GRAMMAR SCHOOL BUILDING FOR THIS CITY.

F. W. Dobbel Reads an Interesting and Instructive
Paper on the Subject at a Recent Meeting of
the Mens' League in this Place

At a recent meeting of the Mens' League held here the principal topic of discussion was the building of a new grammar school edifice for Sonoma, which has been urged in these columns from time to time. The proposition was endorsed by the League, which pledged its support to the grammar school trustees, Carl Dresel, Philip Bill and Dr. A. M. Thomson, who are engaged in working out a plan to replace the present ramshackle with a modern school building in keeping with the new Sonoma.

During the discussion, Mr. F. W. Dobbel, a prominent farmer of this valley, read the following interesting and instructive paper on the subject:

"We fully realize that the league can only discuss and offer suggestions regarding this matter, but it is hoped that these discussions and suggestions may enlighten the citizens and awaken a spirit of enthusiasm, that the people of this school district may realize their duty toward their children, their fellow men and themselves.

The public buildings, and more particularly the public school, stand out as convincing evidence of the people's character; the stranger who desires to locate, judges us by what his eyes perceive; his opinion of us and our prosperity is based upon what we can show him, more so than by words of truth. If he be a man of sufficient education to know how little he knows he will seek environments where his children may enjoy all the advantages and comforts of a modern school and many sacrifices are often made to this end. On the other hand, the illiterate, undesirable person, whose sole aim is the getting of the Almighty Dollar, honestly if he must, and who has no regard for education and moral training, is the one not to be discouraged by antiquated and unsanitary school buildings.

A modern school building, therefore, will help to influence desirable and intelligent people to locate among us, and the good effect that such public buildings have on a community is more marked than generally believed. Therefore, let our view of the situation be that of a stranger; walk up the street and stop in front of the school tomorrow and put this question to

yourself: "As a stranger what do you think of such a school building for Sonoma?" In looking at this structure as it stands today, you will find it inadequate to the needs of the present day; it has served its purpose since 1869-42 years—is it any wonder that it is out-of-date and unfit for our children at this time? Indeed not! It is a surprise to us that it has served this district as long as it has, but we believe there is no time like the present to move that some steps be taken to bring about the erection of a school building that will command respect of strangers, reflect credit upon this community and afford comfort to our teachers and children.

Prosperity is dawning upon this valley and we must anticipate our future requirements, therefore, to construct a public school building that merely provides for our immediate needs, would be acknowledgment of our lack of faith in the future of Sonoma. To erect a cheap structure for ten or twelve thousand dollars would be no credit to this community; it would tend to confirm the old saying "Sonoma is dead;" let us show our neighbors and the world at large that Sonoma is alive and very much so. If we provide for the future generation, as we should, we have a natural right to expect that they bear part of the burden, but let us give them value for their money.

The assessed valuation of this district for 1910 was \$960,161. It is safe to assume that in five years hence, this figure will go to \$1,200,000. Taking in consideration what our district requires and the means which must be provided, we have arrived at a figure which we think will pay for a structure that we could point to with pride as Sonoma's Grammar School. To this end, we would suggest bonding the district in the sum of \$25,000, said amount to be used for the purpose of erecting a school building of at least six class rooms, furnishing the same, improving the grounds and, if necessary, acquire additional property to enlarge the school yard. This building should be built of stone or brick, one-story in height with high basement, and so planned that a wing of say two rooms may be added in time and yet not mar the symmetry of the whole. A building of this kind, if properly

constructed, will withstand an earthquake of the 1906 class. It will be cooler in summer and warmer in winter than a wooden structure, besides the upkeep will be materially less as but little painting will be required, insurance rate will be light, it will not show the wear and rough usage accorded buildings of this kind and will remain a permanent structure.

These bonds could be issued in suitable denominations; the first thousand dollars to fall due in 5 years; one thousand dollars to fall due each year after until the tenth year; when \$2000 shall be paid, and a like sum up to the 20th year when the last bond will be redeemed. By this plan, we will have the benefits to be derived from a modern building for five years, just for the interest on the bonds, and assuming that the assessed valuation for 1911 be \$1,000,000, the special tax for the payment of this interest on the total bonds, if they bear 5 per cent interest, will be 12 1/2 cents per \$100 assessed valuation; in other words a man assessed for \$1000 will pay an increase in taxes of \$1.25 per year for the first five years; a \$2000 assessment will pay \$2.50, etc. The 6th year on an assessed valuation of \$1,250,000 there would be a levy of 10 cents per \$100 for the interest due and 8 cents per \$100 for the redemption of the first \$1000 in bonds; each year the interest would decrease by about 40 cents on the \$100. The approximate rate per year for the entire term by years, would be about as follows:

1st to 5th year inclusive	12 1/2c
6th year	18.0c
7th year	17.6c
8th year	17.2c
9th year	16.8c
10th year	16.4c
11th year	24.0c
12th year	23.2c
13th year	22.4c
14th year	21.6c
15th year	20.8c
16th year	20.0c
17th year	19.2c
18th year	18.4c
19th year	17.6c
20th year	16.8c

A plan of this sort for the redemption of the bonds appeals to us as the only equitable solution and we are especially in favor of making the first bond fall due not earlier than five years from date.

For comparison we quote the special school tax rate of several districts with that of our own, viz:

Healdsburg	50c
Cloverdale	31c
El Verano	21c
Sebastopol	50c
Glen Ellen	30c
Lincoln	86c
Sonoma	17c

Sonoma will be found to be third lowest in the county and should be well able from this point of view to take care of a bond issue in the manner outlined.

The new law recently passed providing for the apportionment of school funds, according to the daily average attendance, must also be borne in mind; it will be necessary to avail ourselves of every opportunity to increase the daily average attendance, and the first step to be taken is to provide an attractive, modern building where children may find comfort and enjoyment besides the drudgery of school life.

We have a city hall that is a credit to this valley; we also have a splendid water system; a new Carnegie library has just been assured us and we soon expect to witness the completion of a children's play ground and the installation of a modern sewer system. All these tend to brighten the future of Sonoma, yet our children are taught in a building like a barn, unsanitary and unsightly.

Crops in Sonoma Valley as Compared With Other Sections

Jos. Keechler, superintendent of the Sonoma Land Co's ranches in the southern part of the valley, has lately returned from an extended business trip through the San Joaquin and Santa Clara valleys. In speaking of his travels, Mr. Keechler remarked that the hay and grain crops in this valley would compare favorably with those of any section of the country traveled by him. In some sections, particularly in San Benito county, there would be less than half a crop, while on the west side of the San Joaquin, there will be an immense barley yield.

Lawrence Villa Park Opening a Big Success.

The annual opening of Lawrence Villa Park on Sunday was largely attended and pronounced a big success by those who were present. The enterprising proprietors, Messrs. Gere & Bruchou, had engaged the services of the Sonoma Valley Band of twenty-eight pieces and in addition to an open-air concert by the band boys there was dancing in the pavilion and a splendid barbecue under the shade of the trees. A large crowd was present from the valley towns and there was a big turn out from San Francisco, where Messrs. Gere & Bruchou have many friends. All present unite in saying it was one of the most pleasant and orderly affairs ever conducted in this valley.

AN ANNIHILATOR OF BOTH TIME AND DISTANCE

The Southern Pacific Company to Reduce the Run
Between San Francisco and Chicago
Four-and-a-Half Hours.

Notwithstanding the cry of the demagogues "to put the Southern Pacific Company out of business," it is still pursuing the even tenor of its way and is going right along improving its service for the benefit of the public. Now, comes the announcement that half a business day will soon be cut from the San Francisco-Chicago time of the Southern Pacific-Union Pacific-San Francisco Overland limited enabling that train to make the trip in 68 hours instead of 72 1/2 as at present. "This annihilation of distance," said J. C. Stubbs, Director of Traffic of the Union-Pacific S. P. System, Monday, "which will be accomplished upon Sunday, May, 28th, is the initial step toward realizing to the traveler using the Union-Southern Pacific System the advantage made possible by the vast sums expended in improving our roadbed, in installing electric block signal protection, in double tracking, betterment of power and equipment, etc. Time is money and the clipping of 4 1/2 hours from our schedule is in the nature of a dividend to the traveling public which we believe all travelers, especially business men, will appreciate, since the increase in speed is made without any decrease of the comfort of traveling."

The San Francisco Overland Limited under the present schedule leaves San Francisco at 10:40 a. m. and arrives in Chicago at 1:00 p. m.—72 1/2 hours later. It will leave San Francisco at 10:20 a. m. under the new schedule and arrive in Chicago about 9:10 a. m., in time to connect with the eastbound morning trains. Eastbound it now passes through Omaha at 11:45 p. m. and will hereafter make it at about 8:00 p. m. Westbound under present schedule it leaves Chicago at 7:00 p. m. and arrives in San Francisco at 5:28 p. m., 72 1/2 hours later. Under the new schedule it leaves Chicago at about 8:30 p. m. arriving in San Francisco about 2:28 p. m. The train now passes through Omaha westbound at 8:15 a. m. and under the new schedule it will make it about 9:30 a. m.

The Plague-Breeding Ground Squirrel.

THAT colossal octopus, the Standard Oil, is not the only thing being put out of business in these days of protest, for even that most lowly ground squirrel is "getting his." So successful has been the agitation against this little animal that the farmers of Fresno county have begun to wage deadly war and the extermination of every specimen of the plague-susceptible animal is promised. Fresno is to have inspectors, both local and governmental, to see that the work is effectually carried out. A recent test revealed the fact that the counties in California possess ground squirrels infected with plague germs.

Women and the Picture Shows.

WOMEN play a most useful and important part on the censor boards of many moving picture shows. It is not only in the determining of the moral effect and desirability of the subjects presented to the children of the country in our nickelodeons, but in other respects also, for because of their close observation of and association with children, sisters and mothers see more closely the effect in general which certain pictures, not morally objectionable perhaps, have on the minds and nervous systems of the little ones. This phase of the matter has important bearing on the physical and intellectual development of the child, and if the picture productions were not supplemented with good judgment at the suggestion of our women censors we would be certain to have a lot of very nervous children whose minds could not be easily directed to study or discipline. Women are invaluable in such work.

The Japanese are Leaving.

THAT more Japanese are leaving the United States and Hawaii than are entering the country was remarked on the floor of the House of Representatives Thursday by Congressman Knowland. He submitted department of commerce and labor figures to show that from July 1, 1908, the Japanese entering the United States numbered 7,501, against 14,195 leaving the United States and its possessions. In Hawaii there were 4,348 arrivals and 6,266 departures. "This does not look like an invasion," Knowland remarked. "In view of the interest shown on the Pacific coast when the recent Japanese treaty was up, these figures should be also of interest."

That Exposition Site.

WHERE is that Panama-Pacific Exposition site going to be? The only logical site is that of Arbor View, which commands a beautiful sweep of the bay and the Golden Gate. It is about time the San Francisco fair commissioners were coming to a decision in the matter by eliminating Golden Gate Park and selecting the marine site as suggested above.

Big Contest at Charlie's Skee Ball Bowling Alley

On Thursday evening at Charlie's Skee-ball bowling alley a most exciting contest was played between the "Wolves" and the "Bears" of Sonoma.

The management offered \$2.50 in cash to the person making the highest total score in three games. The contest ended by George Carpenter (Bear) and Jim Maffei (Wolf) making total scores of 1850.

These two gentlemen played the tie off and George Carpenter won the tie game by 20 points.

Each side consisted of nine players and all through the six games each side kept very close to one another, making the game most interesting and exciting.

The Wolves made a total score in three games of 14,450 and the Bears 14,450.

George Carpenter's scores were: 500-620-730. Jim Maffei's 550-600-700.

Skee-ball has been very popular since being opened up here and the management welcomes those who have not seen the game as yet, either as players or spectators. Ladies are always welcome at any time.

Ordinance No. 115

An Ordinance Regulating the Use or Discharge of Firearms or Fireworks and Prohibiting the Sale or Possession of Firearms in the City of Sonoma.

The Board of Trustees of the City of Sonoma does hereby ordain as follows: Section 1. No person or persons, firm, company, corporation or association shall, after the passage of this ordinance, sell or offer for sale or have in his or its possession or custody any gun, cannon, rifle, pistol, toy pistol or firearm of any kind, or explode any rocket, cracker, roman candle, torpelo cane, blank cartridge, or other combustible device, or any kind of fireworks by whatever name known, within the limits of the City of Sonoma.

Provided, however, that public displays of fireworks may be given with the joint written consent of the President of the Board of Trustees and the Chief of the Fire Department.

Section 2. No person or persons, firm, company, corporation or association shall, within the limits of the City of Sonoma, after the passage of this ordinance, sell or offer for sale or have in his or its possession or custody any gun, cannon, rifle, pistol, toy pistol or firearm of any kind, or explode any rocket, cracker, roman candle, torpelo cane, blank cartridge, or other combustible device, or any kind of fireworks by whatever name known, within the limits of the City of Sonoma.

Section 3. Any person or persons, firm, company, corporation or association, who, which shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor and, upon the conviction thereof, shall be punished by a fine not exceeding one hundred (\$100) dollars or by imprisonment in the City Jail for a period not exceeding thirty (30) days, or by both such fine and imprisonment.

Section 4. All ordinances and parts of ordinances in conflict herewith are hereby repealed.

Section 5. This ordinance shall take effect immediately.
In Board of Trustees finally passed and approved, the 3rd day of May 1911.
M. E. CUMMINGS,
President of the Board of Trustees of the City of Sonoma.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first and best specialist in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them.

Write without fear as with-out fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Prest., Buffalo, N. Y.

7508 feet 6-inch sewer pipe.
4070 feet of 8-inch sewer pipe.
9060 feet of 10-inch sewer pipe.
312 4-inch Ys, on 6-inch pipe.
5 6-inch Ys, on 6-inch pipe.
3 6-inch Ts, on 6-inch pipe.
147 4-inch Ys, on 8-inch pipe.
4 6-inch Ys, on 8-inch pipe.
1 6-inch T, on 8-inch pipe.
114 4-inch Ys, on 10-inch pipe.
3 6-inch Ys, on 10-inch pipe and
3 6-inch Ts, on 10-inch pipe.

These amounts are approximate and may be a little more or less. All to conform to specifications now on file with the City Clerk of Sonoma City.

All bids shall be written on blanks to be furnished by the City Clerk and must be marked "Proposals For Sewer Work," and addressed to the City Clerk, at his office in the City Hall.

Each bid shall be accompanied by a certified check to the amount of five per cent of the bid, conditioned that the bidder, if successful, will enter into a contract for furnishing said material with the Board of Trustees.

The Board reserves the right to reject any or all bids.

By order of the Board of Trustees.

City Clerk.

NOTICE

Sealed proposals will be received by the Board of Trustees of the City of Sonoma, for the construction of a sanitary system of sewers for said city, up to eight o'clock p. m., on the 22nd day of May, 1911.

The work for which proposals are invited consists of the construction of approximately 21,822 feet of sewers of vitrified salt glazed sewer pipe, running from 6 inches to 10 inches in diameter; all work to be done in accordance with the plans and specifications heretofore adopted and on file with the city clerk.

Each bidder will file two bids, one for the complete construction of said sewer system, including the furnishing of all materials, tools and implements, as per the plans and specifications therefor hereinabove referred to, and one for such complete construction of said sewer system except the furnishing of the sewer pipe and Y and T branches which the Board of Trustees may elect to furnish at its own cost and expense.

All bids shall be written on blanks to be furnished by the city clerk and must be marked "Proposals for Sewer Work," and addressed to the city clerk, at his office in the city hall. Each bid shall be accompanied by a certified check to the amount of five per cent of the bid, conditioned that the bidder, if successful, will enter into a contract for said work with the Board of Trustees.

The Board reserves the right to reject any or all bids.

By order of the Board of Trustees.

Sonoma, Cal., April 24th, 1911.

M. E. CUMMINGS, President.

(SEAL) H. W. GOTTENBERG,
City Clerk.

VINEBURG AND ITS IMMEDIATE VICINITY

"Easy Jim" is Still on Deck
and Tells of the Week'shap-
penings in His Section

Tillie Tipton is back from Mex-
ico. We will hear from her next
week.

Our old minstrel friend, Frank
McGill of Schellville, was a visitor
here one day last week.

Arthur Batto was a passenger on
last Saturday morning's train en-
route to the metropolis.

The new railway station at
Buena Vista is completed and pre-
sents a very attractive appearance.

Victor Donahue, well known in
this part of the valley, is a guest at
the Groskopf home, "Whispering
Pines."

Carpenters are building a new
station platform here and when it
is completed it will be quite an at-
tractive improvement.

The north-bound excursion train
which passed here Sunday morn-
ing was a double-header. It was
the first of the season.

Miss Tallie Griffith is visiting at
the home of her parents Mr. and
Mrs. Albert Griffith. She expects
to spend a month here.

Architect Adolph Lutgens in-
spected the work done on the new
school house last Sunday along
with Trustee Fred Batto.

Mr. Jack Murray, who was
kicked by a horse a short time ago,
we are glad to report, is now con-
valescent and able to be around.

Mr. and Mrs. R. M. Sims and
daughter were the guests of Mr.
and Mrs. Carl Dresel last Sunday.
They returned to their city home
Monday morning.

E. Forni has installed several
extra electric globes at his pretty
summer resort here "Pleasant
Villa," and is busily preparing for
the "good old summer time."

Mr. Arthur Batto drove a few
relatives in his auto on Tuesday
afternoon to the city of Napa. The
party consisted of John Batto, P.
Batto, Mrs. Arthur Batto and baby
Evelyn.

Mr. W. R. Hansen, our local
merchant, has made extensive im-
provements upon his store and has
arranged his stock in an attractive
manner. He reports business im-
proving.

A city paper last Sunday stated
that there was no good fishing
around Wingo. That is kind of
funny, people go from here nearly
every day and return with strings
of fish caught near that place.

Mr. and Mrs. Thomas Lewis,
who reside on the Napa road near
Sonoma, took a fishing trip to the
tules near Wingo, one day last
week. They report having had a
fine time and splendid luck.

A large number of the members
of the Pacific Coast Technical So-
ciety were entertained last Sunday
afternoon by Mr. Walter Bunschu
at the famous cellars of the
Gundlach-Bunschu Wine Co.

Mr. and Mrs. Fred Batto and
family, accompanied by Miss
Adele Andrieux, visited Petaluma
Sunday afternoon. The ladies at-
tended a meeting of the Society of
Saint Elizabeth, of which both are
members.

The presence of mind and the
prompt action of engineer Garcia
of passenger train No. 140, going
north on Saturday, saved the life
of a child who crossed the track in
front of the approaching train. As
it was, the little tot had a very
narrow escape, the locomotive hav-
ing missed him by about a foot.
Parties who saw the incident speak
highly of Mr. Garcia's promptness
in slackening the speed of his
locomotive.

**Calendar of Events of the Sonoma
High School**

The school will close for the
summer vacation on Friday even-
ing, June 2d.

On the evening of the closing
day of the school a number of the
students will present to the general
public at Union Hall the play of
"The Bishop of Ballarat." The
comedy will not only be laughable
but entertaining as well.

On Saturday evening, June 3d,
the graduating exercises will be
held in Union Hall, and diplomas
awarded to the graduates.

On Sunday evening a Baccalaureate
sermon will be delivered in the
Congregational Church.

On Monday evening, June 5th,
there will be an invitational Senior
reception and dance in the assem-
bly hall of the High School build-
ing.

\$100 REWARD \$100

The readers of this paper will be pleased
to learn that there is at least one dreaded
disease that science has been able to cure
in all its stages, and that is Catarrh. Hall's
Catarrh Cure is the only positive cure now
known to the medical fraternity. Catarrh
being a constitutional disease, requires a
constitutional treatment. Hall's Catarrh
Cure is taken internally acting directly
upon the blood and mucous surfaces of the
system, thereby destroying the foundation
of the disease, and giving the patient
strength by building up the constitution
and assisting nature in doing its work.
The proprietors have so much faith in its
curative powers that they offer One Hun-
dred Dollars for any case it fails to cure.

DR. W. P. BURKE IS ADMITTED TO BAIL

Qualified in a Bond of \$50,000
and is Now Enjoying His
Freedom.

Dr. W. P. Burke, under a sen-
tence of ten years in the peniten-
tiary, has been admitted to bail
in the sum of \$50,000 by Judge Den-
ny pending a decision of the appel-
late court on an appeal for a new
trial.

On Tuesday last Judge Denny,
after listening to the evidence of
Dr. Thomson, Dr. Seawell and Dr.
O'Brien as to the health of the
convicted man, made the order
which gives him his freedom until
his case is acted upon by the
higher court, upon his filing a
\$50,000 bond with the following
sureties: Cornelius Shea, \$20,000,
and John P. Overton, H. H. Moke,
L. D. Jacks, Frank M. Burris,
Ney L. Donovan, Frank P. Grace
and Rafor Peterson, each for
\$10,000.

There was no argument by
counsel as the court did not desire it
Assistant district attorney Hoyle,
however, remarked that he doubted
the good faith of the petitioner
in certain phases of his affidavit
statements. He mentioned the
fact that Dr. Burke had failed to
avail himself of any exercise at the
jail or the open air of the jail yard,
and further, that he had persisted
in eating food that in the testi-
mony of all three of the physicians
examined that morning was not
good, and in fact was exactly op-
posite to the nourishment suiting
his health.

Hay Market--Association Reports 103,950 Tons on Hand

Somers & Co. report the condi-
tion of the hay market for the week
ending 16th inst. as follows:

"Receipts of hay have of late
been increasing, a total of 3174
tons arriving during the past week
in comparison with 2474 for the
week preceding and 1750 for the
week previous to that. Although
prices are fairly well maintained,
yet the local market is not at pres-
ent in such shape as to permit it to
take care of the large quantity of
hay which arrived during the week
and maintain the firm range of
prices which existed a week or two
ago. Trade continues very dull
and it is only the better grades of
wheat and oat hay which sell read-
ily but there is practically none of
this latter article being offered
either locally or in the country."

"The San Francisco Hay Asso-
ciation has just published a report
of the supply of hay on hand May
1st covering the counties which
send their hay to the local market.
This report shows 103,950 tons of
hay on hand which unquestionably
is a much larger amount than
most people thought it would be,
for the consumption of hay in the
country and outlying districts has
been very heavy during the winter.
Undoubtedly the knowledge of this
quantity of hay being on hand
will have a tendency to weaken
the market, especially for new crop
for it is so late now that a
very large percentage of this
hay must be carried into the new
season and be sold in competition
with the new crop. Furthermore
most of the hay now on storage in
the country is of comparatively
poor quality, which of course must
be sold at low prices and will there-
fore have a tendency to create a
low range of prices—lower than
exists at the present time."

Peace Day Debate at the High School.

Peace Day was observed Thurs-
day in the High School by a debate.
The subject was "Resolved, that
international peace can best be
maintained by the armaments of
the nations."

The affirmative debaters were
Gertrude Calderwood, Fred Du-
ring and Rudolph Wagner. Those
who argued the negative side of the
proposition were Eunice Poppe,
George Chase and Harry Lutgens.

The debate was a spirited one
and ended in a triumph for those
students who argued in the affirma-
tive.

The points were awarded as fol-
lows: Affirmative—Arguments,
71; expression, 67. Negative—
Arguments, 71; expression, 65.

The judges were Florence Rubke,
Hazel Baines and Hamil Wagon.

Quite a few visitors were present
to listen to the arguments pro and
con.

GERONIMO IN ACTION.

The Indian Chief's Story of How He
Whipped the Mexicans.
About noon we began to hear them
speaking my name with curses. In
the afternoon the general came on the
field, and the fighting became more
furious. I gave orders to my war-
riors to try to kill all the Mexican
officers. About 2 o'clock the general
called all the officers together at the
right side of the field. The place where
they assembled was not very far from
the main stream, and a little ditch ran
out close to where the officers stood.
Cautiously I crawled out this ditch,
very close to where the council was
being held.
The general was an old warrior. The
wind was blowing in my direction, so
that I could hear all he said, and I
understood most of it. This is about
what he told them: "Officers, yonder
in those ditches are the red devil Ge-
ronimo and his hated band. This must
be their last day. Ride on them from
both sides of the ditches. Kill men,
women and children. Take no prisoners;
dead Indians are what we want. Do
not spare your own men; exterminate
his band at any cost. I will post the
wounded to shoot all deserters. Go
back to your companies and advance."
Just as the command was given, the
general and he fell. In an instant the
ground around me was riddled with
bullets, but I was untouched. The
Apaches had seen. From all along the
ditches arose the fierce warcry of my
people. The columns wavered in an
instant and then swept on. They did not
retreat until our fire had destroyed the
front ranks. After this their fighting
was not so fierce, yet they continued to
rally and advance until dark. They
also continued to speak my name with
threats and curses. That night before
the firing had ceased a dozen Indians
had crawled out of the ditches and set
fire to the long prairie grass behind
the Mexican troops. During the con-
fusion that followed we escaped to the
mountains.—From "Geronimo's Story
of His Life," by S. M. Barrett.

Denmark and Holland export butter,
which takes nothing from the soil.
The French import Asiatic silk, weave
it at Lyons and export the finished
product. They export wine by anal-
ysis 87 per cent water, 10 per cent al-
cohol and 0.04 per cent aroma and bou-
quet. Water and alcohol take nothing
from the soil, but the aroma makes
the wine worth from \$10 a pound
down.
In the peace negotiations between
Bismarck and the French in 1871 it
was not the money indemnity, it was
not the loss of territory, that pro-
longed negotiations. Bismarck be-
thought himself to demand 5,000 em-
pty old champagne barrels impregnated
with the aroma, the bouquet produc-
ing ferment, and this the French re-
fused. They had consented to pay
\$1,000,000,000; they broken heartedly
gave up Alsace and Lorraine, but the
bouquet of their priceless wines Bis-
marck would not have, and in the end
they compromised on five barrels.
The French were instinctively gov-
erned by superhuman common sense.—
Harrington Emerson in Engineering.

Washington Irving.
To Washington Irving more than to
any other writer belongs the high
honor of being the "creator of Ameri-
can literature." Irving was not the
first American to write good literature,
but he was the first American to write
in a way to catch and hold the Euro-
pean attention. It was through Ir-
ving's writings that the old world was
made aware of the fact that there was
an American literature. Hildreth,
Prescott, Cooper, Poe and others of
the pioneers came in for a full mea-
sure of praise, but Washington Irving
will always hold his title as father of
our literature.—New York American.

Hub of the Social Universe.
"We do not hesitate to call the Cov-
ent Garden Opera House 'the hub of
the social universe,'" says the London
Sphere. "We have been in the opera
houses of Munich, Dresden, Milan, Ber-
lin, Paris and Vienna, and there is
nothing quite so impressive in any one
of these as can be found at Covent
Garden in the height of the season. To
visit Covent Garden Opera House in
the season is to know life at its most
magnetic point."

At the Wrong Door.
"My health and digestion are per-
fect, doctor," began the caller in the
office of the medical man. "I haven't
an ache or a pain. The trouble with
me is that I cannot sleep at night."
"Well, if that is the case, sir," said
the learned physician, "I suggest that
you consult your spiritual adviser
rather than me."—Lippincott's.

Greatly Overrated.
"Mrs. Gaswell, while you were in
Venice did you see the Bridge of
Sighs?"
"Oh, yes; I saw what they called
that; but, my land, I've seen bridges
ten times its size without ever going
out of Pennsylvania."—Chicago Trib-
une.

are sure to continue the treatment till re-
lieved.

Announcement.

To accommodate those who are partial
to the use of atomizers in applying liquids
into the nasal passages for catarrhal trou-
bles, the proprietors prepare Cream Balm in
liquid form, which will be known as Ely's
Liquid Cream Balm. Price including the
spraying tube is 75 cents. Druggists or by
mail. The liquid form embodies the medi-
cinal properties of the solid preparation.
